Gel Polish Preparation

1.
Push back cuticle.

2.
Shape the nail.

3.
Lightly buff the surface of the nail plate.

4.
Sanitize with **FPO Nail Bed Cleanser**.

5.
Dehydrate the nails with **FPO Nail Prep Dehydrator**.

6.
Apply one coat of **FPO Adhere Primer** and allow nails to dry.

Gel Polish Application

1.
Apply a thin layer of **FPO Soak Off Base Coat** and cure for 30 sec. LED / 2 min. UV

2.
Apply a thin coat of **FPO Soak Off Gel Color**, cure for 30 sec. LED / 2 min. UV and repeat.

3.
Apply a thin coat of **FPO Soak Off Top Coat** and cure for 30 sec. LED / 2 min. UV

4.
Wipe the tacky layer off the nails with **Nail Bed Cleanser**. Use a wipe per nail so as to completely remove any residue. Some oils will be left behind on the nails to reveal a high gloss finish.

5.
Massage **FPO Restore Cuticle Oil** into nail plates and cuticle.

Gel Polish Removal

1.
Break the seal of the **FPO Soak Off Top Coat** with a 180 grit file.

2.
Apply a cotton ball saturated with **Soak Off Gel Polish Remover** to each nail using a piece of foil. Soak off time will vary (8 to 10 min.) depending on wear and exposure to light. Check after 8 min. If necessary, resaturate, rewrap and check every 3 min.

3.
Use a soak off removal tool to remove any residue left on the nail plate after removal.

4.
Perform natural nail manicure and apply **FPO Renew Soak Off Nail Strengthening Gel** and cure for 60 sec. LED / 2 min. UV

5.
Wipe the tacky layer off the nails with **Nail Bed Cleanser**. Use a wipe per nail so as to completely remove any residue. Some oils will be left behind on the nails to reveal a high gloss finish.

6.
Massage **FPO Restore Cuticle Oil** into nail plates and cuticle.

ESSENTIALS

Nail Prep Dehydrator

Gently dehydrates the nail plate prior to artificial nail application for enhanced adhesion.

0.5oz.

35334

Application Steps

1

Prep and dehydrate as you would before applying a **Gel Polish Base Coat**.

2

Apply a thin coat of **FPO Soak Off Gel Polish Base Coat** and cure with LED light or UV light systems.

3

Apply a thin coat of **FPO Soak Off Gel Polish #27 (black) or #26 (white)** over **FPO Soak Off Base Coat**, cure and repeat.

4

Apply a thin coat of **FPO Soak Off No Wipe Top Coat** over **FPO Soak Off Gel Polish #27 (black) or #26 (white)** and cure.

5

Select your **FPO Gem FIX Chrome Powder**. Using the eyeshadow applicator, pick up the **Chrome Powder** and rub it into the cured **FPO Soak Off No Wipe Top Coat**. Use as little as possible. Note, for a holographic and duo effect, do not rub. Instead, gently tap the **Chrome Powder** into place. Once you have a layer down, continue to rub the **Chrome Powder** into place creating a deeper holographic look.

6

Brush away any excess with the lip brush. Pay close attention to the cuticle area. Avoid picking up loose **Chrome Powder** and dragging it into the finishing coat.

7

Finish with a thin coat of **FPO Soak Off No Wipe Top Coat** over the **FPO Gem FIX Chrome Powder** and cure.

0.5oz.

smooth skin
for all

WAX

GEL WAX

This hair removal method combines an esthetically pleasing gel with the best adhesiveness available. Blends synthetic resins with pure and powerful botanicals to provide accurate, long-lasting hair removal while soothing and protecting the skin. The absence of titanium dioxide ensures a more decisive pull. Available in an array of flavors to satisfy the user's preference.

13.5oz.

Lemon	35750
Orange	35751
Strawberry	35752
Jojoba & Argen	35740
Crystal	35756
Aloe Vera	35755

CREAM WAX

These formulas maintain the adhesiveness and nurturing characteristics of the gel waxes but add titanium dioxide to yield a creamy soft wax that guarantees a velvety stripping away of unwanted hair. Enhanced with botanicals known to moisturize, soothe and repair, plus minerals, such as Zinc Oxide, which calm the skin, preventing reddening and making these products particularly suitable for first-time users and for those with sensitive skins.

13.5oz.

Olive	35724
Zinc	35744
Almond	35746
Pearlage	35741
Cocoa	35748
Jasmine	35747
Milk	35745
Apple	35754
Mineral	35749
Perfetta	35760
Berries	35753

NON-STRIP

SUGAR PASTE

Water soluble and biodegradable hair removal using edible sugars and corn starch. Does not melt or spread as it is used at low temperatures. Prevents reddening and irritation because it is applied against the grain of the hair growth and removed in the opposite direction; without the use of strips. Provides a peeling effect for perfectly depilated skin.

13.5oz.

Soft	35762
Strong	35737

HARD WAX

Neither a hot wax or a liposoluble, our new hard wax, used without strips, is particularly recommended for hair removal from the delicate "bikini & facial" areas. Formulated with titanium dioxide to create a creamy buffer that protects skin yet produces better waxing.

13.5oz.

Brazilian	35738
Facial	35739

FILM WAX

The improved version of the classic hot wax, used at low temperatures and without strips. Designed for the complete removal of coarse and short hair from the delicate bikini, armpit and facial areas. Formulated with titanium dioxide to ensure complete yet delicate hair removal while protecting from irritation and redness. Leaves skin silky smooth and hair-free.

Plum 35782
White Chocolate 35783

SPECIALTY

COLD WAX

Three components, one great wax! Plant-based resin, ultra-pure paraffin oil and powerful botanicals provide complete removal of even the hardest to remove hairs on all skin types while protecting against redness and irritation and hydrating and nurturing to deeply soften, improve elasticity and smoothness.

1gal.

Brazilian 35738
Facial 35739

CITRUS BASED WAX CLEANSER

Keeps work station residue free and service ready. All Purpose Cleanser removes wax from warmers, pots, spatulas, floors, tabletops, upholstery and clothing.

18oz
 36449

HONEY FORTE

13.5oz
 35761

The most natural way to pamper your skin! The water soluble wax; that skillful mix of truly simple and yet highly effective components. Sugar, honey, lemon juice and naturally, the water that ensures a perfect blending of the various elements and makes the wax easy to remove. This ancient recipe is still a valid hair removal instrument, suited to many situations and many different types of skin.

13.5oz
 35759

AZULENE

A refined formula that incorporates the most prized, technically advanced natural resins with soothing and nourishing botanicals. This wax blends German Chamomile oil which allows for a more comfortable hair removal experience due to its skin soothing properties. It has great appeal and a decisive pull. It is simply "Perfect".

PRE-WAX

Effectively removes dirt & impurities from the area to be epilated to ensure better wax adhesion and overall results.

18oz
 35727

48

PRE-WAX GEL

Formulated to temporarily desensitize skin's surface thus reducing the discomfort of waxing while soothing the skin. Enhanced with Arnica, for its analgesic and anti-inflammatory properties, and Aloe, for its ability to soothe, moisturize and calm sensitized skin.

8oz
 35728

ANTISEPTIC CREAM

Rich cream soothes while protecting against infection with a carefully selected blend of botanicals that penetrate pores to reduce swelling and cool after hair removal.

08oz **02oz**
35722 **35723**

BODY SCRUB

A hydrating and revitalizing exfoliating scrub featuring a rich blend of select oils loaded with essential fatty acids, potent antioxidants vitamins and minerals.

8oz
35729

POST-WAX OIL
